SUMMARY

As a MERN developer, I excel in crafting dynamic and responsive web applications, leveraging my expertise in MongoDB, Express.js, React.js, and Node.js. My commitment extends to ensuring clean, efficient code and a user-centric design approach. Proficient in incorporating modern design principles, I utilize libraries such as Tailwind CSS to enhance the visual aesthetics of my projects. Tailwind CSS, with its utility-first approach, allows me to streamline styling, resulting in faster development cycles and consistent design

SKILLS

- Frontend - HTML, CSS, Javascript, React, Redux, Tailwind
- Backend - Node.js, Express.js
- Database - MongoDB

PERSONAL PROJECTS

React-portfolio :

My personalized portfolio, crafted with React and Tailwind, serves as a dynamic space where I showcase my skills and experiences, tailoring information to align with resume essentials. I'm currently working on my portfilo and adding some new stuffs

StudyRelief :

I am currently working on a large-scale project that utilizes React, Node.js, Express.js, and MongoDB, complemented by additional libraries such as Tailwind CSS. The project includes both backend and frontend, with an ongoing focus on creating a beautiful UI. The project encompasses not only authentication and authorization features but also integrates a payment gateway API, providing a comprehensive solution for secure user access and seamless transaction processing.
